Contents Volume 12 1990

Volume 12 Number 1 1990

History of Computing in France—Machines
About this Issue 1
Specifications of Twelve Early Computers Made in France • Pierre-E. Mounier-Kuhn 3
From Gamma 2 to Gamma E.T.: The Birth of Electronic Computing at Bull • Bruno Leclerc 5
The SEA CAB 500 Computer • Dimitri Starynkevitch 23
American Scientists and Calculating Machines—From Novelty to Commonplace • Peggy Aldrich Kidwell 31
The Cellar Principle of State Transition and Storage Allocation • F. L. Bauer 41
Happenings • J. A. N. Lee 51
1990 Paris Conference • Pierre-E Mounier-Kuhn
A Report on the International History of Computing Conference, Manchester University, 19–20 July 1989 • Geoffrey Tweedale
Virginia Tech Library Receives John T. Parsons Papers • Glen McMullen
The Information Age • Jon Palfreman
Self-Study Questions • Jean E. Sammet 55
Anecdotes • James E. Tomayko 55
Early Computer User Groups • Bruce H. Bruemmer
Computer User Groups [1960] • Herbert S. Bright
Biographies • Eric A. Weiss 61
Andri Petrovich Ershov • David Gries 62
Comments, Queries, and Debate
Whiggism in the History of Science and the Study of the Life and Work of Charles Babbage • R. Anthony Hyman
Whirlwind and Microprogramming • Maurice V. Wilkes
More on Wilkes, Whirlwind and Microprogramming
Pioneer Biographies • George T. Jacobi
The Atanasoff Story—A Response • Alice R. Burks and Arthur W. Berks
Notes on Babbage, Aiken, and Bowditch • I. Bernard Cohen
Joseph Fourier's Anticipation of Linear Programming • I. O. Grattan-Guinness
What Does BNF Stand For? • Mike Woodger
Reviews • Paul Ceruzzi 72
Nijholt: Computers and Languages: Theory and Practice • Ralf Buelow
Kawasaki: The Macintosh Way
Fang: Tools of Communication: The Computer Story
Otnes: Keuffel and Esser Slide Rules
Answers to Self-Study Questions • Jean E. Sammet 73

Volume 12 Number 2 1990

History of Computing in France—Education
About this Issue 77
Computer Science at the CNRS and in French Universities: A Gradual Institutional Recognition • Georges-Louis Baron and Pierre-E. Mounier-Kuhn 79
Computer Sciences at the University of Grenoble • Pierre E. Mounier-Kuhn 89
Informatics at the University of Grenoble • Jean Kuntzmann 91
Programming in Grenoble in the 1960s and those who Flew from the Nest • Jean Pierre Verjus 95

Contents

On the Beginnings of Computer Development in Poland • Leon Łukaszewicz **103**
Three Inventors—Scenes from Early German Computing History • Ralf Bülow **109**
Happenings • J. A. N. Lee **127**
Heinz Zemanek, Austria's Computer Pioneer, Turns 70 • J. A. N. Lee
The Bicentenary of Charles Babbage • I. Grattan-Guinness
IFIP Working Conference on the History of Computing in Europe • Gyozo Kovacs and Heinz Zemanek
Computer Bowl II • Steve Wilcox
Self-Study Questions • Jean E. Sammet **128**
Anecdotes • James E. Tomayko **130**
More on General Electric's Start in the Computer Business
Dr. Robert Johnson Interview
Biographies • Eric A. Weiss **137**
Alan J. Pertis
Bertram Vivian Bowden • Geoffrey Tweedale
William P. Hanf • Heinz Zemanek
Marcel Linsman
Harriett B. Rigas
Louis Robinson
An Interview with Jan Rajchman
Comments, Queries, and Debate • Werner Buchholz **147**
Babbage's Friend • Donald Watts Davies
Errors in the FORTRAN Issue • Mark Halpern
Reviews • Paul Ceruzzi **147**
Ceruzzi: Beyond the Limits: Flight Enters the Computer Age • Martin Campbell-Kelly
Staudenmeier: Technology's Storytellers: Reweaving the Human Fabric
Bijker, Hughes, and Pinch: The Social Construction of Technological Systems: New Directions in the Sociology and History of Technology
Van Crevald: Technology and War: From 2000 B.C. to the Present
Rifkin and Harrar: The Ultimate Entrepreneur: The Story of Ken Olsen and Digital Equipment Corporation
Time-Life Books (ed): Understanding Computers Vol. 24: Illustrated Chronology and Index
Lee: Winning with People: The First 40 Years of Tektronix • Charles Susskind
Searle: The Bombsight War: Norden vs. Sperry
Kruh: Tales of Yardley: Some Sidelights to his Career
IEEE Scientific Supercomputer Subscommittee. The Computer Spectrum: A Perspective on the Evolution of Computing
Forrester: High-Tech Society • K. W. Smillie
The Computer • K. W. Smillie
Molina: The Social Basis of the Microelectronics Revolution • K. W. Smillie
Answers to Self-Study Questions • Jean E. Sammet **153**

Volume 12 Number 3 1990

History of Computing in France—Professionalization
About this Issue **157**
CRIN: The History of a Laboratory • C. Pair **159**
The French Society of Computer Scientists: AFCET • Colette Hoffsaes **167**
Work for the Hairdressers: The Production of de Prony's Logarithmic and Trigonometric Tables • I. Grattan-Guinness **177**
An Experimental Model of an Electronic Computer • Helmut T. Schreyer **189**
Happenings • J. A. N. Lee **199**
Dr. Oliver B.R. Strimpel Named Executive Director of the Computer Museum • Gail Jennes
Second Colloquium on the History of Information in France: Paris, 24–26 April 1990 • J. A. N. Lee
De La Machine à Calculer de Pascal à l'Ordinateur, 350 Ans d'Informatique, Musée National des Techniques, Conservatoire National des Arts et Métiers, Paris, France, 25 April–23 September 1990 • J. A. N. Lee
Book Award Given
A Correction • Joachim Fisher
Self-Study Questions • Jean E. Sammet **204**

Anecdotes • James E. Tomayko **205**
For the Record: Pioneering Days in British Computing • A. S. Douglas
Reviews • Paul Ceruzzi **210**
Lilley and Trice: A History of Information Science 1945–1985 • Calvin N. Mooers
Crandall and Flamm: Changing the Rules: Technological Change, International Competition, and Regulation in Communications • Emil Friberg
Yates: Control Through Communication: The Rise of System in American Management • William Aspray
Killen: IBM: The Making of the Common View • Herman Berg
Answers to Self-Study Questions • Jean E. Sammet **214**

Volume 12 Number 4 1990

About this issue • J. A. N. Lee **217**
History of Computing in France—Users
The Beginnings of Computing Activities at the Atomic Energy Authority, 1952–1972 • Albert Amouyal **219**
Informatics in the Defense Industry • Henri Boucher **227**
A Look into the Future of Information Processing • Heinz Zemanek **241**
Another Look into the Future of Information Processing, 20 Years Later • Heinz Zemanek **253**
Happenings • J. A. N. Lee **261**
Smithsonian Opens Major Exhibition on the Information Age at the National Museum of American History
ISU Student Helps Rebuild Portion of the ABC • Ronald Crow
Bicentennial Conference on Computing
The Smithsonian and the RAND Corporation Cooperate in Videotaped Session with RAND's Computer Pioneers • Terri Schorzman
Design Decisions on Early Computers or Why We Did What We Did • Geoffrey Tweedale
UNIX Oral History
History and Sociology of Supercomputers
Self-Study Questions • Jean E. Sammet **267**
Anecdotes • James E. Tomayko **269**
The Evolution of Software Design Ideas by David J. Koepke
Biographies • Eric A. Weiss **277**
Obituaries
José Garcia Santemases
Roy Nutt
Florence Jessie MacWilliams
Charlotte Boschan
Memoirs
Early Days of Electronics at IBM • Richard G. Canning
Early Computer Days in Britain and Australia • Richard G. Canning
Biographical Snippets • John M. Bennett
Comments, Queries and Debate • Werner Buchholz **286**
Soviet BESM Computers • Gregory D. Crowe
Museums and Archives • Michael Williams **287**
CBI Announces Availability of the Papers of Edmund Berkeley
Smithsonian Opens Their Information Age Exhibition • Vicki Moeser
Reviews • Paul Ceruzzi **291**
Science and Reform. Selected Works of Charles Babbage by Anthony Hyman • K. W. Smillie
A History of Personal Workstations, Adele Goldberg (ed) • Eric Weiss
Self-Study Answers • Jean E. Sammet **294**

Volume 12 Index **302**
